Aspiring Data Scientist with a strong foundation in programming, OOP, DSA, and SQL, and 2 months of Experience as an AI intern. Currently enhancing my skills in ML,DL,**YOLOv8** and **Transformers** and eager to work with TensorFlow, Keras, and PyTorch for **Fine-Tuning** models. Currently in my 5th semester with a 3.62 CGPA.

EDUCATION

Bachelors in Data Science University of Management And Technology(UMT)

09/2022 - 06/2026, Lahore, Pakistan

Courses

- Machine Learning

- Object Oriented Programming
- Data Structure & Algorithms

- Database & Systems

Experience

Techionik 08/2024 - 10/2024

Project : Android App Navigation Chatbot

- Integrate an open-source LLM for app navigation with ADB.
- Use Depth-First Search for route navigation and screenshots.
- Refine the model with user feedback to enhance accuracy and privacy.

Projects

House Price Prediction System

- Semester Project : Self Implemented class
- Mutli-Linear Regression

Laptop Sales Database Management System

- Database contains information about product , customers and order
- Can get required information using SQL queries
- Implemented Joins and Sub Quires

Working on PSX Prediction Project

Tools

- ☐ Jupiter Notebook

☐ SSMS

☐ VS Code

☐ Google Colab

☐ DEV C++
- ☐ Visual Studio

☐ Pycharm

AREAS OF EXPERTISE

PythonDatabase & Systems

Transformers LibraryYOLOv8

PandasData PreprocessingNumpy

Data Analysis and VisualizationExcel

Simple & Multi-LinearRegressionMatlab

Web Scraping (Basic)SQL

CERTIFICATES

- Intro to Data Analytics 5 days
- Machine Learning Bootcamp Solved
- 27 SQL Leet Code Questions
